

BLUE

DEERFOS BLUE is the best choice with affordable price and unprecedented performance, fast speed and long life. It ensures high performance and quality in wide range of metal works and revolutionizes the abrasive market.

5 Reasons to Choose DEERFOS BLUE

1 Cost Effectiveness

It ensures excellent cost-effectiveness with reasonable price and outstanding performance.

2 Work efficiency

It can increase work efficiency in wide range of metal works and sanding materials with its fast and clean cutting performance.

3 Long life

It reduces the number of product replacements with its three times longer life time than that of other companies, reducing working hours and improving productivity.

4 Safety

European MPA safety certification is obtained. Clogging and heat generated during work are minimized for easy and safe work.

5 Quality Management and Product Competitiveness

DEERFOS is one of the world's popular abrasive companies, and it guarantees perfect quality management and product competitiveness through the expertise that it has accumulated for 60 years.

CUT-OFF WHEEL & GRINDING WHEEL

BLUE

CUT-OFF WHEEL

BLUE

GRINDING WHEEL

Cut-off wheel 4 inch (A, WA)

Feature : Fast speed of cutting, Long life
Application : STEEL, STAINLESS

Dimension	4 inch (A, WA)
Product size	105 x 1.0 x 16 (mm)
(Outer diameter x Thickness x Inner diameter)	
Content (in)	50 pcs
Content (out)	600 pcs
MAX-RPM	15,200
Operating speed	80 (m/s)

Cut-off wheel 5 inch (A, WA)

Feature : Fast speed of cutting, Long life
Application : STEEL, STAINLESS

Dimension	5 inch (A, WA)
Product size	125 x 1.0 x 16 (mm)
(Outer diameter x Thickness x Inner diameter)	
Content (in)	50 pcs
Content (out)	600 pcs
MAX-RPM	12,200
Operating speed	80 (m/s)

Cut-off wheel 14 inch (A, WA)

Feature : Fast speed of cutting, Long life
Application : STEEL, STAINLESS

Dimension	14 inch (A, WA)
Product size	355 x 2.8 x 25.4 (mm)
(Outer diameter x Thickness x Inner diameter)	
Content (in)	-
Content (out)	25 pcs
MAX-RPM	4,400
Operating speed	72 (m/s)

Cut-off wheel 16 inch (A, WA)

Feature : Strong cutting power,
Increased work efficiency
Application : STEEL, STAINLESS

Dimension	16 inch (A, WA)
Product size	405 x 3.0 x 25.4 (mm)
(Outer diameter x Thickness x Inner diameter)	
Content (in)	-
Content (out)	20 pcs
MAX-RPM	3,800
Operating speed	72 (m/s)

Grinding wheel 4 inch (A, WA)

Feature : Excellent grinding power,
Efficient work possible
Application : STEEL(A), STAINLESS(WA)

Dimension	4 inch (A, WA)
Product size	100 x 6 x 16 (mm)
(Outer diameter x Thickness x Inner diameter)	
Content (in)	50 pcs
Content (out)	200 pcs
MAX-RPM	15,200
Operating speed	72 (m/s)

Grinding wheel 7 inch (A, WA)

Feature : Excellent grinding power,
Efficient work possible
Application : STEEL(A), STAINLESS(WA)

Dimension	7 inch (A, WA)
Product size	180 x 8 x 22.2 (mm)
(Outer diameter x Thickness x Inner diameter)	
Content (in)	25 pcs
Content (out)	50 pcs
MAX-RPM	8,600
Operating speed	72 (m/s)
